

As you are well aware, the COVID-19 pandemic has had a tremendous impact on the life of people from around the world in almost every way. We acknowledge and fully support the various travel and public gathering restrictions, social distancing etc. to help slow down the spread of the virus. Further at this point of time of the pandemic which is creating a huge impact, we as organizers also have a responsibility to pursue. In light of these new circumstances, we feel obligated to let our stakeholders know we are addressing this challenge while continuing to support all of our activities through online mode for a considerable time and maximizing the safety of our staff, colleagues, stakeholders and the community at large.

Every Country in their own way is trying to reopen their economies in a well-defined manner. Government of India is also trying hard to combat these critical times. University Grants Commission, one of the regulators of the Indian Education has issued the advisories to open colleges and universities from 1st August at different modes and segments.

The ICCC-2020 conference committee thinks positively as well -

HOPE THINGS WILL CHANGE SOON AND PEOPLE WILL GATHER AGAIN.

We are very much concerned that many conference have moved to Digital modes seeing the current situations, further as actual physical conferences provide an opportunity to meet researchers in person and further make new friends, discuss and review our thoughts. On the same note we are going ahead with a hope we will all gather for the conference.

Soon, we will announce the new date for ICCC-2020 based on the current situation.

However, we are aware of advisories in India through State and Central Government and across the globe as well due to pandemic, further we are also monitoring Indian Government measures daily.

We will continue to monitor the situation and will post regular updates. **As of now we advise you**

not to book your travel for the current conference dates might shift with the prevailing situations to make it happen in physical mode or take a needful decision for the well being all authors. In any case all registered authors will have a buffer time of 30 days to plan the travels.

Further regarding the publication, we will move all the registered papers towards publication.

We wish everyone and their families good health and the best of luck in these tough times and we hope to see you for the conference.
